

Careers for Physicists

Tuesday, October 25th, 16:00 – 19:00

ETH Zürich Zentrum, HG F3

What are physicists doing in their professional life? The area, where physicists are working, is wide! Four experienced professionals will present their careers and possible options for physicists, who want to work in their field. After these initial presentations, you will have the possibility to discuss with them in person and get your questions answered during an apero.

Adrian Honegger

Co-Head of IT, Baloise Insurance

Marc von Waldkirch

Vice President Research

and Development, Sensirion

Rolf Kaufmann

Project Manager, CSEM Zürich

Kai Hencken

Scientist, Corporate Research,

ABB Switzerland Ltd.
